

CRS Award for Steelmakers

Steelmakers received the Best Social Responsibility programme award during the ZNCC annual awards held at Redcliff. The award was in recognition of Steelmakers' contribution to uplifting the Redcliff and Kwekwe communities. The company last year invested billions of dollars in assisting the underprivileged in society.

Amongst the beneficiaries from Steelmakers include the Redcliff neighbourhood watch committee who received a brand new Mazda B1800 truck to enhance patrols in Redcliff. Other charities to benefit during the year include orphans who received bursaries through The Patel Foundation. The Rutendo Old People's Home are also beneficiaries from steelmakers. The company unveiled a sponsorship package for Zimbabwe ladies cricket by sponsoring the inaugural Inter-Provincial Championships as well as the senior national team's participation during the World Cup cricket qualifiers held in South Africa.

The CSR programmes for Steelmakers are premised on the genuine beliefs that the future of the country can only be better when corporate invest in uplifting the standard of the people surrounding them.
